# Withdrawal Process in FxWealthHub

In FxWealthHub, we have implemented a structured withdrawal system that ensures continuous growth for all users' investments while providing immediate liquidity.

## Withdrawal Process

When the withdrawal request is submitted, 60% of the amount is instantly processed and sent to the designated wallet. 40% of the withdrawal amount is automatically reinvested to upgrade the investment capital. This feature encourages compounding, helping users to grow their investment portfolio over time.

# Withdrawal Process in FxWealthHub

## Example:

If you request to withdraw **100 USDT**, the system will:  
Transfer **60 USDT** directly to your wallet.

**40 USDT** will be added automatically to your investment to upgrade your capital. This withdrawal approach aligns with our mission of fostering long-term growth and financial stability for all users.

# Profit Claim Process

In FxWealthHub, we have made it easy for our clients to claim their daily trading profits as follows:

## Claiming Daily Profit

Client can claim their daily trading profit by logging into the dashboard and click the "**Claim Profit**" button. This feature ensures that users are actively engaged and can track their profit daily.

## Daily Claim

The Profit is claimed on daily basis as the system is designed to reward daily engagement. This process aligns with our structured trading activities to provide consistent and reliable returns.

# Profit Claim Process

## Important Note

**Missed Claims Are Not Refundable:** If anyone forget to claim his profit, the unclaimed amount will **not** be refunded or rolled over to the next day. We encourage all users to log in the system daily and claim their profits.

The daily profit claiming process ensures transparency and fosters regular interaction with the platform.
